WHY HIGH SCHOOL AT SELONG BAY

Academics, Skills, and Time to Explore

Teenagers need more than a robust academic education — they need time to explore, enjoy their environment, and build the practical skills that will carry them into adulthood. Our Secondary School Programme partners with **HSPG Bali**, an online school, to offer the best of both worlds: rigorous academic learning plus practical skills and a full social and outdoor experience on our Lombok campus.

How It Works

1 1:1 Private Tutoring Online

Private tutoring online with specialist, internationally experienced teachers.

2 In-Person Subject Teaching

Science, Maths, and English teachers deliver in-person teaching on campus.

3 On-Site Supervision

Qualified on-site teachers supervise tutoring time, project time, and activities.

4 Afternoon Activities

Time every afternoon for kids to enjoy being kids in Lombok.

What HSPG Bali Provides

- A **flexible, recognised alternative** to traditional high school
- A **legal, recognised homeschooling pathway** for secondary/SMA-level students
- Ideal for families seeking **flexibility, personalised learning, and strong future pathways**
- **Fully recognised by the Indonesian Government**, equal to formal schooling, following the Cambridge Curriculum
- Students can graduate with a **National Indonesian Certificate**, an **International Cambridge Certificate** (IGCSE/A-Level), or both – usable for university entry and employment in Indonesia and overseas

1:1 Private Tutoring via Zoom

Families choose the curriculum pathway that suits their child:

1 National Curriculum (Indonesia)

Kurikulum Merdeka.

2 International Curriculum (Cambridge)

IGCSE (Secondary) and A-Level (Advanced) – internationally recognised for overseas universities.

3 International PLUS Programme

Students receive both an Indonesian National Certificate and a Cambridge International Certificate.

Subjects Offered

Every student follows the same core subjects, then builds their own timetable with electives and a vocational/life skills strand.

COMPULSORY

Core Subjects

- Religion & Character Education
- Civics (Pancasila)
- Bahasa Indonesia
- Mathematics
- English
- Physical Education
- Arts & Culture

CHOOSE UP TO 4

Elective Subjects

- Biology
- Physics
- Chemistry
- Economics
- Geography
- Informatics

Availability based on demand.

CHOOSE AT LEAST 1

Vocational & Life Skills

- Content Creation
- Financial Skills
- Entrepreneurship
- Business Skills
- Technology & STEAM

Compulsory strand.

ON CAMPUS

What Selong Bay School Provides

- **Qualified, experienced teachers** to supervise and support follow-up work after tutoring, and organise practical sessions that can't be done online (e.g. a chemistry lab)
- Students supply their own device (**laptop or iPad with keyboard**)
- Selong Bay provides **classroom space, a quiet tutoring space, Wi-Fi, technical support, and supervision**
- A **personalised learning plan**, checked off daily with the Selong Bay Supervisor
- **Group projects** organised by Selong Bay teachers
- Lunch available from **Godspeed café** at IDR 45,000/day
- **Afternoon activities** planned each term, organised and supervised by Selong Bay School
- Extra **in-person tutoring** with Selong Bay teachers available on request

EVERY AFTERNOON

Afternoons Are for Activities

Once tutoring and project time are done, afternoons belong to activities — time to enjoy being a kid in Lombok.

Core Clubs

- Gardening Club
- Surf Club
- Padel Club
- Adventure Junkie
- Marine Science
- Football Academy

And More Activities

- Music Beat
- Skate Club
- Sasak Culture
- Master Chef
- Hip Hop and Gymnastics
- Drama and Acting

BEYOND THE TUTORING SCREEN

Project-Based Learning

Alongside 1:1 tutoring, students take part in hands-on, project-based learning on campus — turning ideas into real, finished things, and building skills that don't fit neatly into a single subject.

- **Woodwork** — hands-on building and design, from small craft pieces to functional furniture
- **Science and STEM** — experiments and engineering challenges that bring classroom theory to life
- **Business/Entrepreneurship** — students plan, pitch, and run their own small ventures
- **Coding and Robotics** — programming and building, from simple apps to robotics kits
- **Craftwork** — traditional and creative craft skills, including weaving with local materials
- **Nature Seekers** — outdoor exploration and environmental projects around Lombok's landscapes

Project descriptions above are illustrative summaries — replace with your source document's exact wording if you have specific copy you'd like used instead.

2026 FEES

Costs per Student

	ANNUAL	BY TERM
Early Adopter Rate	IDR 95.000.000	IDR 23.750.000
Junior High School	IDR 108.450.000	IDR 27.112.500
Senior High School	IDR 123.750.000	IDR 30.937.500

Includes online membership, development, resource fees, and registration. Excludes lunch and exam costs (approx. IDR 3,000,000 per subject, subject to curriculum requirements). The Early Adopter Rate applies to both Junior and Senior students.

Discounts: pay the annual fee upfront for a 5% discount, or a 5% sibling discount when a sibling is also enrolled. Each discount is calculated independently from the base annual fee.

Age Group Guideline

JUNIOR HIGH SCHOOL	AGE
Grade 7	12–13
Grade 8	13–14
Grade 9	14–15
SENIOR HIGH SCHOOL	AGE
Grade 10	15–16
Grade 11	16–17
Grade 12	17–18

Meet Our Teachers

Nadine Natali Hanslik (Ms Nati)

SECONDARY SCHOOL SUPERVISOR · AGES 13–18

Nadine Natali Hanslik is currently completing her Master of Education in Germany, building on her Bachelor of Arts in Education with specialisations in Chemistry and Physical Education. She also completed an exchange semester at Griffith University in Australia, expanding her international teaching perspective. Nadine is multilingual, speaking German, English, and Polish, making her well suited to an international school environment. She is a certified Online Tutor with experience supporting students in both classroom and digital learning settings. Throughout her studies, Nadine has held leadership roles within faculty and student councils, demonstrating strong communication, collaboration, and organisational skills. Her diverse academic and professional experiences have developed her adaptability, professionalism, and ability to work effectively with students and colleagues from a wide range of cultural backgrounds.

Marwan Desky Ismansyah

SECONDARY YEARS · MATHEMATICS, ADVANCED MATHEMATICS & MUSIC SUPPORT · AGES 12–18

Marwan Desky Ismansyah holds a Bachelor's degree in Pure Mathematics from Maulana Malik Ibrahim State Islamic University of Malang. He recently worked as a Teacher Assistant at Mandalika Intercultural School, supporting classroom learning and gaining experience in an international school environment. Prior to this, Marwan held roles in educational consulting, human resources, and corporate training, developing strong skills in communication, mentoring, leadership, and professional development. His background in mathematics includes research in statistical analysis, mathematical modelling, and applied mathematics, with published work on topics including the Golden Ratio, ARIMA modelling, and numerical solutions for brain tumour models. Proficient in analytical software such as SPSS, Minitab, and Maple, Marwan combines strong technical expertise with excellent problem-solving skills. Fluent in Bahasa Indonesia with strong English communication skills, he is well equipped to support bilingual learning environments.

WHAT MAKES US DIFFERENT

Our Unique Approach

1 Ability to Travel and Keep Lessons

Because tutoring happens 1:1 online, students can keep up with their studies even while travelling, without falling behind.

2 Social and Culture Connection

Based on campus in Lombok, students stay connected to a real community, friendships, and local culture — not just a screen.

3 Our Own App

Our dedicated school app keeps students, parents, and teachers connected — ask us for a full walkthrough.

"Our Unique Approach" descriptions above are illustrative — replace with your source document's exact wording if you have specific copy you'd like used instead.

School Site & Contact

Our secondary students are based at our Lombok campus in Selong Belanak, alongside our Primary and Early Years community. A free shuttle service from Kuta is available for enrolled students, making it easy for families based further afield to travel to and from campus.

Book a visit or online meeting today.
